PORTFOLIO · EDITION 2026 · JUBAIL, SAUDI ARABIA

Operations clients can feel and leadership can measure.

Daud Maqsood runs business operations, client service and marketing for an industrial contractor in Jubail, on registers, dashboards and AI tools built from zero legacy data.

ROLE	Assistant Manager, Facility and Business Operations
RECORD	Since 2011 · seven industries · Saudi Arabia and Pakistan
STACK	Excel · Power BI · Google Apps Script · Claude
ONLINE	daudmaqsoodofficial-creator.github.io/portfolio · films and live dashboards

JUBAIL · 2025 TO 2026
SAR 40–50K
monthly cost leakage curtailed

COMMERCIAL DESK
40–50
client RFQs handled each month

UK FINTECH ACCOUNT
95%
quality score across 200 to 250 daily cases

GIGA PROJECT LOGISTICS
100%
client inspections passed, zero compliance lapses

01 · SCOPE

Three functions, one desk.

Growing companies usually split these across three hires. The record below shows them held together, with one system underneath so nothing depends on memory.

A

Business operations

Procurement, vendors, fleet, facility and cost control for a 500 plus workforce across seven client projects.

- RFQ to quotation to purchase order cycle
- Three vendor minimum on every purchase
- 26 supervisors, foremen, coordinators and technicians directed

B

Client and customer service

Client facing in every role held: fintech customers, giga project inspectors, restaurant guests, industrial buyers.

- Corporate mailbox owned from enquiry to purchase order
- Joint inspections with the client at Ras Al Khair
- 95% quality on a UK fintech account

C

Marketing and communications

A company with no marketing function given a LinkedIn page, a sales kit, films and an exhibition presence.

- Company documentary, trailer and safety film
- Flyers, carousels and corporate email signature
- Static Arabia stand and a client safety campaign run

02 · CURRENT ROLE · SHAROOQ AL JUBAIL · 2025 TO DATE

No handover. No records. Control established.

Joined as Facility Operations Coordinator in October 2025. Promoted to Assistant Manager, Facility and Business Operations in September 2026, eleven months later.

POSITION

On appointment there was no handover, no documentation and no checklists. Maintenance and diesel spend held no traceable record across a mixed fleet of more than 150 units.

MEASURES TAKEN

The operating record was built from zero. Workshop supervisors, site foremen, coordinators and technicians were given registers, forms and procedures that fit how they work, then held to them on every service, refill and bill.

OUTCOME

Cost leakage of SAR 40,000 to 50,000 a month was curtailed. Leadership now reads the position from a dashboard. The remit was widened to the commercial desk, vendors and marketing.

01

Every vehicle photographed, identified and placed on one asset register

02

Handover forms, checklists and gate passes issued to site and workshop

03

Preventive maintenance set on a date or kilometre trigger

04

Diesel and engine oil tested against work output, by project

05

Bills audited against cash sent; variances traced and recovered

SAR 40–50K	150+	~20%	7
curtailed each month	fleet units on register	fleet availability improved	client projects supported

03 · SYSTEMS BUILT

The live management dashboard.

Built in Google Apps Script. Thirteen modules, English and Arabic, refreshed from the workshop and site registers. Leadership sees oil, diesel, maintenance and document compliance on one screen.

Fleet and Operations Intelligence

05 · CLIENT EVENT · SAFETY CAMPAIGN 2026 · 11 AND 12 NOVEMBER

Two days on the client's ground, recognised on stage.

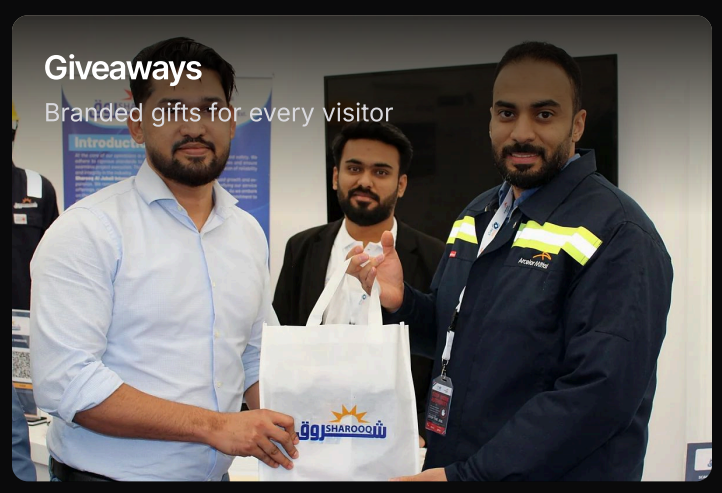

JESCO and ArcelorMittal Tubular Products Al-Jubail ran a two day plant safety campaign for their contractors. Sharooq's participation was planned, supplied and run from one desk, and closed with a personal certificate of appreciation from the client.

Certificate of appreciation
Awarded to Daud Maqsood by name, presented on stage by the client

VIP hosting
Client leadership received at the stand

Giveaways
Branded gifts for every visitor

The crew
Briefed, uniformed and rostered across both days

Plant workforce
Safety content and gifts taken to the people on the line

Client teams
Conversations that carry into new enquiries

The campaign
Client staff and contractors at the main stage

Closing ceremony
Certificates presented to participating teams

01 · Plan
Client brief read, stand vendor sourced and the proposal negotiated

02 · Content
Safety film produced in English and Arabic for the stand screen

03 · Supply
Stand, refreshment stations, flyers and branded gifts delivered on time

04 · Run
Crew managed on site, visitors and VIPs hosted for two days

05 · Close
Client appreciation received, photographs and follow up filed

EVENT MANAGEMENT · CLIENT SERVICE · MARKETING · JUBAIL INDUSTRIAL CITY, NOVEMBER 2026

06 · CLIENT AND CUSTOMER RECORD

Every request, answered.

The standard was set on an international account and carried into every role since. A request is logged the day it arrives, each reply carries a status, and every complaint is closed with evidence.

FMCO · NEOM AND IMI RAS AL KHAIR · 2024 TO 2025

Zero lapses on a giga project.

More than 30 buses, coasters and pickups moved staff on a maritime yard under frequent client inspection. Documents were brought to one standard, inspections run jointly with the client and weekly driver training introduced.

0	100%	10–15%
compliance lapses	inspections passed	fewer road incidents

MINDBRIDGE FOR REVOLUT UK · 2022 TO 2024

Premium customers, verified daily.

International customers served by live chat and voice. Passports, visas and permits verified for fraud and compliance. New hires coached through shadowing and nesting.

95%	200–250	~40%
quality score	identity documents a day	trainee proficiency lift

TALON INSTITUTE OF HIGHER STUDIES · 2020 TO 2022

A department assumed without notice.

The Admissions Manager post fell vacant and the department was taken over at once. Campaigns, parent meetings and admissions drives were run, and a national accreditation conference was hosted.

PKR 1M	~20%	~15%
revenue in 4 to 5 months	more incoming leads	satisfaction lift

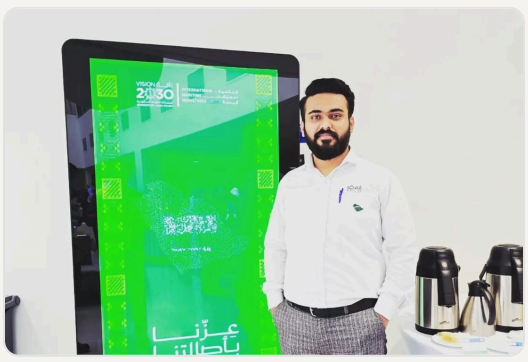

BAU G DAIRA AND PLATTER JUNCTION · 2015 TO 2019

A new restaurant brought to a running business.

Operations taken over in full: marketing, customer channels, rotas, service standards, procurement and sales reporting. Private, corporate and VIP events hosted at a premium mall venue.

+50%	+40%	1,000+
sales growth	customer retention	guest interactions a day

RAS AL KHAIR MARITIME YARD · DRIVER SAFETY TRAINING · DHAHRAN EXPO · ACCREDITATION CONFERENCE, LAHORE

07 · CAREER RECORD

Seven industries. One standard.

Each move added a discipline the next role used: enterprise software, hospitality service, education sales, fintech compliance, giga project logistics, industrial contracting.

PERIOD	ROLE AND ORGANISATION	SECTOR	COUNTRY
Sep 2026 – now	Assistant Manager, Facility and Business Operations PROMOTED Sharooq Al Jubail International	Industrial contracting	KSA
Oct 2025 – Aug 2026	Facility Operations Coordinator Sharooq Al Jubail International	Industrial contracting	KSA
Oct 2024 – Sep 2025	Logistics, Documents Control and Operations Coordinator FMCO · IMI Ras Al Khair	Maritime giga project	KSA
Jul 2024 – Oct 2024	Operations Supervisor FMCO · NEOM	Giga project logistics	KSA
Jun 2022 – Jul 2024	Senior Customer and KYC Support Coordinator Mindbridge · Revolut UK account	Fintech BPO	Pakistan
Mar 2020 – May 2022	Assistant Manager, Admissions and Operations Talon Institute of Higher Studies	Higher education	Pakistan
Apr 2018 – Sep 2019	Customer Service Operations Manager Bau G Daira	Restaurant	Pakistan
Oct 2015 – Feb 2018	Customer Service and Operations Supervisor Platter Junction, Emporium Mall	Hospitality	Pakistan
Jun 2013 – May 2015	Customer Support and Sales Executive, ERP Aisone Systems	Software	Pakistan
Mar 2011 – Sep 2012	Data Entry and Administrative Support Board of Intermediate and Secondary Education, Lahore	Public sector	Pakistan

Days 1–30

Listen and map. Every team lead met, every site walked. Where requests, data and money enter, wait and leak.

Days 31–60

Build control. One register per asset class, one log per request type, alerts on every expiry.

Days 61–90

Run on data. Leadership dashboard live weekly, KPIs against agreed targets.

After

Hand over. Procedures written so the system survives without its builder.

08 · RECOMMENDATIONS AND CREDENTIALS

In the words of colleagues.

Published on LinkedIn by the people named.

> “He won't leave a problem until it's perfectly solved while maintaining the work output of several people.”

Waqas Anwar
E-commerce Operations Professional · February 2024

> “He consistently impressed me with his professionalism, dedication, and expertise in Customer Support, Data Processing and KYC Due Diligence.”

Usman Haider
Data Analyst · colleague at Mindbridge for Revolut · February 2024

> “A hardworking, reliable, and responsible individual who consistently performed his duties with professionalism and dedication.”
